Product description

This product delivers fast drying and quality. It meets basic requirements for performing quality drying. Good results can be achieved with the right dosages.

Storage

Keep tightly closed, avoiding exposure to UV rays and extreme temperatures. For more information, we recommend referring to the safety sheet.

Directions for use

Product designed for:

In high-pressure jet wash centres, the product is applied by a dosing pump. Purified water is recommended while maintaining dosing around 10 mL/min, trying to keep the pump percentage around 30%.
