Product description

This product is designed to improve the drying of the vehicle and also provides shine and a pleasant cherry scent.

Storage

Keep tightly closed, avoiding exposure to UV rays and extreme temperatures.
For more information, we recommend referring to the safety sheet.

Directions for use

Product designed for:

In high-pressure jet wash centres, the product is applied by a dosing pump. Purified water is recommended while maintaining dosing around 10 mL/min, trying to keep the pump percentage around 30%.

A dosing pump is used to apply the product in rollovers and tunnels. Use of purified water is recommended, keeping the dosage around 15 mL/min, trying to maintain the percentage of the pump around 30%.
