Product description

Excellent brush care shampoo specially designed for car wash bays and tunnels. Its continuous use supports both brush maintenance and wash bays. It also prevents transfer contamination. Recommended in wet and hot areas

Storage

Keep tightly closed, avoiding exposure to UV rays and extreme temperatures. For more information, we recommend referring to the safety sheet.

Directions for use

Product designed for:

A dosing pump is used to apply the product in car wash bays and tunnels. The recommended dosing rate for hard water (400 ppm) is around 15 ml/min, trying to keep the pump level between 15 and 20%. The flow of chemical product can be reduced slightly to around 12 ml/min when using soft water.

15-20%
Bay and tunnel pump
