

## Drying Aid

### Standards

### Directions for use

### Product specifications

o Specific weight: **0.987 - 1.007**

o Colour: 

o pH: 

o Drying: 

o Packaging:

A dosing pump is used to apply the product in car wash bays and tunnels. We recommend using purified water, maintaining the dosing rate at around 20 ml/min and trying to keep the pump at a percentage of around 30%.

### Product description

This agent provides fast drying with high-quality results.

### Storage

Keep tightly closed, avoiding exposure to UV rays and extreme temperatures. For more information, we recommend referring to the safety sheet.
