Product description

This is a very foaming product with an intense Spa scent that enhances the car wash experience. Even with low dosages it provides very good results.

Storage

Keep tightly closed, avoiding exposure to UV rays and extreme temperatures. For more information, we recommend reading the safety sheet.

Directions for use

Product designed for:

In high-pressure jet wash centres, the product is applied by a dosing pump. For hard water (400ppm), dosage of around 25 mL/min is recommended, trying to maintain the percentage of the pump between 25-30%. For purified water, the chemical flow can be reduced slightly by about 20 mL/min.

25-30%
High-pressure pump

A dosing pump is used to apply the product in rollovers and tunnels. For hard water (400ppm), dosage about 22 mL/min is recommended, trying to keep the percentage of the pump between 25-30%. For purified water, the chemical flow can be reduced slightly by around 20 mL/min.

25-30%
Bay and tunnel pump
